Ivan Matačić

ivan@matacic.net · linkedin.com/in/ivanmatacic · github.com/IvanMatacic · matacic.net

Systems administrator in Zagreb. My day-to-day is vSphere clusters, IBM storage, Veeam backup and the networking that ties them together — plus the restores, migrations and post-mortems nobody puts in a job description.

I've been at Heptabit for ten years: NOC desk first, then the infrastructure team, now leading it. The decade before that was the commercial side of IT — web shop, key accounts, counter sales — which is where I learned what people actually do with the hardware once it leaves the box.

I care about infrastructure that survives the person who built it: documented, monitored, restorable. This site is where the fixes, failures and homelab experiments get written down so neither of us has to solve them twice.

FOCUS

Virtualization — VMware vSphere, Proxmox Virtual Environment

Storage — IBM SVC, NetApp ONTAP

Servers — HPE, Lenovo, Dell

Backup & DR — Veeam

Networking — Mikrotik, Fortinet

EXPERIENCE

Infrastructure Team Lead

Heptabit — Sedmi Odjel · 2022 — present

Leading the infrastructure team responsible for virtualization, servers, storage, backup and the networks behind them.

Infrastructure Systems Administrator

Heptabit — Sedmi Odjel · 2018 — 2022

L2/L3 administration of server hardware, VMware infrastructure, SAN storage, Fibre Channel networks and backup platforms.

NOC Administrator

Heptabit — Sedmi Odjel · 2016 — 2017

L1/L2 support and hands-on administration across Windows, Linux, server hardware, mail, virtualization and networking.

Sales Specialist → Key Account Manager → Web Shop Admin

Mikronis · 2007 — 2016

Nearly a decade on the commercial side of IT, from the sales floor to key accounts and running the web shop.

Sales Specialist

Formel · 2005 — 2007

Sales, procurement and supply of IT equipment.

CERTIFICATIONS

17 verified badges across 5 issuers — every entry links to its Credly verification.
